

PARTS FOR TAURUS 3 RING SAW AT SUNSHINEGLASS.COM

PARTS LISTING WITH CATALOG NUMBERS

New Parts

Pulley Idler #'s 1, 2, 3 and 5 have been re-designed with larger rails that will lock the blade and belt in place, adding to the performance of the saw as well as adding to the life expectancy of the blade and other wear parts.

The larger rails may make it harder to remove and replace the blade. Simply unscrew those pulleys if needed to make room for the blade, belt combination. NOTE: These new pulleys will not fit on #4.
